

Unscreened Millings (Asphalt)

- * Highly compactable
- * Good heavy duty road and parking lot building material
- * This product is stocked in: Collins, Hanover, Springville

Item Description

This product is the unprocessed millings from road building projects. Its top size is variable, but mostly 4 inch minus with lots of fines mixed in. This product is good for heavy duty parking lots and driveways. When properly applied and compacted it can result in a rut and pot hole resistant surface.
