

## Crushed #3 Gravel

- \* NYSDOT 703-02, size 3
- \* Ideal for farm and logging roads
- \* We produce this product in: Gowanda, Great Valley, Springville

### Item Description

This very coarse, crushed, washed, clean gravel is primarily 2" in size with a top size of 2-1/2". It is good for establishing truck roads over semi-firm soil conditions or topping extremely muddy drives. This product is too coarse to shovel by hand.
